## MONEY MARKET.

TUESDAY, May 17-6 P. M. nore activity in the market to-day, but s were not so well maintained. All the leading fancy Canal fell off % per cent; Nicaragua, %; Cumberland, %; Serie Railroad, %; Norwich and Worcester, %; Hudson River Railroad, %. There was a sale of Phenix to day, seller sixty days, at two per cent under the current cash ers option. The clique of speculators engaged in cor he stock offered, so they purchase on time, buyer's option, or the purpose of preventing the stock coming in upon nem unexpectedly. With all this care, they do not succeed very well in their operations. Cumberland is steadily ar coup de état among these railroad companies. It would be very difficult to tell how it is they are even so well sustained. It is past our comprehension. It requires a

The total value of merchandise and specie exported from this port during the week ending May 7 amounted te \$1,986,777, which, added to the above, makes the aggregate for the month thus far, \$3,400,213. This is about equal to the importations last week. It is surprising ow the importations hold out this year, and how limited the exports continue. The outward movement of merchandise and specie has been unusually small, so far as value is concerned, and the probability is there will be no important increase for the present, except in specie. We have for sometime past looked for a greater shipment of the precious metals, but there are no indications of an immediate variation of importance from the exportation

reported for some weeks past.

The property belonging to the Providence Iron Company was disposed of at auction a few days since, and was was disposed of at auction a few days since, and was purchased for \$40,000. The Providence Journal says:—

"The original cost was about \$250,000. A more unfortunate enterprise has never been made in this city, if, perhaps, we except the Providence Glass Company; and that, although far exceeding this in the per centage of loss was, in the aggregate, not near so large. The fron Company was originally started for the making of iron wire, to be used in the manufacture of wood screws. Subsequently it went into the manufacture of railroad iron. It contracted with the Providence and Worcester Railroad to furnish the rails for that read at a price deemed at the time extremely advantageous, but which proved, in the end, like all its operations, extremely disastrous. It then purchased a patent for the manufacture of wrought nails and spikes by machines, at a high price. The machines turned out a good and satisfactory article, but at a cost far exceeding their value. Incossant repairs were needed to keep them in running order. The making of common cut nails was then undertaken; but as that article was at that time selling at prices wholly unremunerative, the entire business was abandoned, and the establishment has now been closed for nearly three years."

The Comptroller estimates the assessment in the remaining four counties at \$26,500,000

Total assessment......\$259,597,96 Or, in round numbers, \$260,000,000 is the value of the taxable property in Maryland. The amount of the old assessment is \$192,781,579; tax on the same, at 25 cents on the \$100, is \$481,953 95; tax on \$260,000,000, at 15 cents. under the proposed new law, will be \$300,000; difference in the receipts from taxation under the old and new assessment, \$91,963 95; which is or will be the actual amount of reduction of direct taxes.

The aggregate values of the different descriptions of property assessed in the city of Baltimore are as follows:— Value of real estate \$66,271,259; bank and other stocks \$11,213,761; private securities \$5,157,663; public securi ties \$4 852,321; stock in trade \$9,521,108; household furniture \$3,377,047; live stock and carriages \$437,316; watches \$100,370; slaves \$326,815; other property \$3,543,788—grand total \$104,801,438. The aggregate of assessable property in the city, according to the assessment of 1846, was \$86,103,673. The increase shown by the city assessment just computed is, therefore, \$18,697,765.

The Chicago Demograt of the 13th inst. says:—

The present debt of the canal is only \$400,000 and six months interest. Had not an acre of land been sold this year there would have been money enough to have paid that sum. After this, the proceeds of the sale of the canal lands, and also of the tolls of the canal, are to be paid upon the back interest of the causi bonds, which

amounts to about \$2,000,000. It is calculated that this will all be paid in two years from next fall, thus leaving the balance of the lands and tolls to apply to the annual interest of the bonds and to the liquidation of the bonds. themselves. When these bonds are all liquidated the capal will revert to the State.
